Coating of hotel balconies 75 m² | Helsinki

Description

The balconies of the classic hotel located by the sea in Munkkiniemi, Helsinki, need updating. The contractor had been looking for a suitable alternative for coating the old tiled balconies. In the renovation, the slopes of the balconies were checked and the surface leveled before the installation of ElaProof+SAND Floor Covering. The final surface was treated with colorless ELACOAT TopCoat varnish. Thanks to the surface varnish, all 11 renovated balconies are easy to keep clean.
