Sawmill Drying Chamber 600 m² | Renko

Description

In 2010, pressure washing and coating work of 600 m² was carried out at the Renko sawmill. At the same time, joints were sealed with ElaProof H.

Information

Build Care Oy carried out coating work until 2016. The product was known as AnySeal until 2009 and ElaStop in 2010-2016. The ElaProof brand name was introduced in 2017.
