

## Coating of CLT Sauna bench

### Description

The steps of the sauna's CLT benches were first treated with ElaProof Primer, and then coated with ElaProof+SAND Floor Covering. On top of that, ELACOAT TopCoat was applied, which makes it easier to keep the area clean. Tikkurila's Supi Sauna Wax was used for treating the seating area.

### Project information

**Client:** Rental site

**Project:** Sauna bench (steps)

**Material:** Cross-laminated timber - CLT

**Contractor:** Paloniitty Oy

**Time and city:** 06/2023

### Products used in the project

- [ElaProof Primer](#)
- [ElaProof+SAND Floor Covering](#)
- [ELACOAT TOPCOAT](#)
