

Coating of the terrace and stairs 90 m² | Kytäjä

Arbeidserklæring

The outdoor terraces surrounding the detached house and the entrance stairs were sanded and smoothed. After that, the site was primed and the waterproofing was ensured with ElaProof H. The stylish surface of the site was done with ElaProof+SAND Floor Covering. The final touch was given by ELACOAT TopCoat RAL 7024 surface varnish, which matches the color scheme of the object, which ensures easy keeping of the surfaces clean.
